FOR IMMEDIATE RELEASE

KPOST named the “Official Roofing and Waterproofing Partner of the Dallas Cowboys”

Dallas, TX — (September 15, 2015) The company responsible for constructing the roof on the iconic AT&T Stadium in Arlington, Texas – home of America’s Team, the Dallas Cowboys – has expanded its relationship with the team. KPOST Roofing and Waterproofing has been named **the Official Roofing and Waterproofing Partner** of the Dallas Cowboys, it was announced today.

“Our strategic alliance with the Dallas Cowboys is based on several factors,” noted Keith Post, CEO of KPOST. “First, we share many of the same values as the Cowboys, including uncompromising integrity and a striving for excellence in every project we take on. Secondly, like the Dallas Cowboys, we are *from* the DFW metroplex and we are proud of the rich history of North Texas.”

KPOST, established in 2003, has been recognized by several local and national organizations for excellence in roofing and waterproofing. The criteria for these awards include construction techniques, overcoming special obstacles, personnel, quality control and safety. The company received the 2013 National Eagle Award – Excellence in Construction – from The Associated Builders and Contractor’s, Inc. for its work on the Perot Museum of Nature & Science and in 2012 for its contribution to the Omni Dallas Convention Center Hotel. In 2014, KPOST was awarded the Sub Contractor of the Year from the Regional Hispanic Contractors Association and in 2015 won the National Roofing Contractors Association (NRCA) Golden Circle Award for Innovative Solutions on the Perot Museum of Nature & Science.

“Safety is a key component of the corporate culture of KPOST,” said Jayne Williams, CFO and Safety Officer. The company has been recognized for its safety record and in-house, bilingual training. KPOST won the Texas Mutual Safety Award for 2011, 2012, 2013, 2014 and 2015 and carries a .56 experience modifier (1.0 is industry standard). Among the multiple safety awards received, KPOST received the Safety Excellence Award for the 84,291 incident free hours worked on AT&T Stadium roof.

KPOST is active in many local and national industry organizations including National Roofing Partners (NRP), North Texas Roofing Contractors Association (NTRCA), Regional Hispanic Contractors Association (RHCA), Roofing Contractors Association of Texas (RCAT), National Roofing Contractors Association (NRCA), and the Midwest Roofing Contractors Association (MRCA).

“Our experience with the Jones family and the Dallas Cowboys organization during the construction of the AT&T stadium was extremely rewarding for our KPOST team,” said Steve Little, President and “Head Coach” of KPOST. “We were pleased to be involved in this state-of-the-art stadium – from planning to construction phase – and it became obvious that our two teams share a passion for preparation. We hope to spread our commitment to safety, quality and value thru our new KPOST Residential division as we embark on this relationship with “America’s Team” to build new opportunities for growth.”

The Dallas Cowboys showed amazing poise under pressure in their first game of the season during the nationally televised game in AT&T Stadium with division rival the New York Giants. With a last minute score to win the game 27 to 26, the KPOST team, suppliers and customers were there to show their support, yelling: “WE DEFEND THIS HOUSE!”
